## **SENTRY®SAFE INTRODUCES BIOMETRIC FINGERPRINT PISTOL SAFE AT SHOT SHOW 2008**

*-- SentrySafe Continues to Provide Quality Gun Protection at Affordable Prices--*

**LAS VEGAS, N.V. (February 2, 2008)** – SentrySafe, the world leader in residential and light-commercial protective containers, is proud to launch the SentrySafe FIRE-SAFE® Fingerprint Pistol Safe at SHOT Show 2008, Feb. 2-5, in Las Vegas, Nevada. With a unique, patented biometric fingerprint lock, the fire-resistant pistol safe is ideally suited for multiple uses, opening with a programmable personal code or the swipe of a finger.

The new SentrySafe Fingerprint Pistol Safe, model TC8-936, offers gun owners, collectors and hunters unprecedented security and protection against theft and potential gun accidents at an affordable price.

“Our new SentrySafe Fingerprint Pistol Safe provides a level of product quality and performance that customers have come to trust from the SentrySafe brand,” said Sondra McFarlane, marketing communications director for SentrySafe. “Home thefts and firearms incidents involving children are occurring more often — there is a true need for gun safes. With our new product line, SentrySafe continues to provide gun owners with proven protection, innovative storage options and advanced security features combined with competitive pricing.”

In addition to the pistol safe, SentrySafe is also pleased to announce three new long-gun SentrySafe Gun Safes, models G2345, GN8281 and GN8381.

With unmatched theft protection, the biometric fingerprint pistol safe and long-gun safes provide shooting-sports enthusiasts and gun collectors unsurpassed organizational innovation, distinctive and rigorous hardware and finishes. The gun safes also offer unique organizational options, including adjustable interior configurations, bungee systems, door back hooks, and the pistol safe offers a removable 6-gun pistol rack. The three long-gun safes feature superior gun protection and safety, including hardened steel plates that protect the locks from drill attack, steel live-locking bolts and pry-resistant doors.
