FINGERPRINT SAFE OFFERS INNOVATIVE SECURITY

-- Sentry®Safe Provides New Security Keeping Sensitive Documents and Digital Media Safe--

ROCHESTER, N.Y. (July 2007)– Sentry Group, the world leader in residential and small office security-storage containers, launches its latest innovative security storage container, the Sentry®Safe Fire-Safe® Fingerprint Safe DA3930. With a unique, patented biometric fingerprint lock, the fire-resistant and water-resistant safe is ideally suited for multiple uses, such as home, office and small businesses.

Complete with a dual-lock option, consumers can operate the safe with either a fingerprint swipe or programmable electronic code—both of which consumers program themselves. Offering incredible security, the Fingerprint Safe utilizes the unique imprint of the owner’s finger to authorize the safe to open. Unlike a P.I.N. or pass codes that must be written down to ensure that it is remembered, a fingerprint is never lost, stolen or forgotten and a copied fingerprint will not be excepted. The biometric lock also features a tubular key and a backlit advanced electronic LCD keypad, allowing up to seven users including one manager with program override capabilities and six additional users for a total of 14 fingerprints stored.

In addition to securely storing digital media, the interior of the Sentry®Safe Fire-Safe® Fingerprint Safe DA3930 holds standardA-4 size papers, folders and binders, includes a multi-position tray, key rack, a compartment for small items and a door pocket. The Fingerprint Safe is ETL verified for 2-hour proven fire protection of digital media including CDs, DVDs, memory sticks and USB drives up to 1850°F. For added protection, the DA3930 comes with hardware allowing the user to bolt the safe to the floor. The Sentry®Safe Fire-Safe® Fingerprint Safe retails for around \$379.

As a leader in the security storage container industry, Sentry Group manufactures quality products available at retail locations across the globe, including Wal-Mart, Target, The Home Depot, Lowe’s, Sam’s Club, Costco, Sears, OfficeMax, Office Depot, and Staples. For more information about products and availability, visit www.sentrysafe.com.
